

Let me say that again: in the last year of the Bush administration, he quadrupled the number of permits to allow for government contractors to outsource jobs overseas.

You want to know why we lost millions of manufacturing jobs over the last decade? There's your answer. We have allowed for American dollars to go overseas to be able to grow international workforces at the expense of our domestic workforce.

You want to know why this year we have already created more jobs than President Bush did in his 8 years?

Well, right at the root of it is President Bush's and the Republicans' drive to take our tax dollars, send them to multinational companies, and allow them to kill American manufacturing jobs. That has to stop, and the Democrats are leading the way.

THE AMERICAN PEOPLE DESERVE AN ANSWER

(Mr. CALVERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CALVERT. Mr. Speaker, I rise today on behalf of the American people, and we deserve an answer about these out-of-control spending policies coming here out of Washington, D.C.

The House has failed to produce a budget. No plans for any appropriation bills, no markups. There's no plan on how the majority will spend America's taxpayers' hard-earned money for this fiscal year, or next fiscal year.

American families, if they don't budget and pay the bills, there are real consequences. Unfortunately, the majority continues to turn a blind eye to future consequences as they push spending to a record \$3.8 trillion in fiscal year 2011 and widen the deficit to a record \$1.5 trillion this year.

House Republicans stand ready to make tough choices in order to rein in spending. Just last week we introduced a measure on the House floor to cut \$2.5 billion in expanded welfare. The program was selected by almost a half a million Americans through the innovative YouCut initiative.

The American people have spoken. Stop the spending frenzy, budget for the future, and return fiscal sanity to Washington.

STOP FOREIGN COMPETITORS FROM USING ILLEGAL SUBSIDIES

(Mr. INSLEE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. INSLEE. Mr. Speaker, Republicans and Democrats should be united in one proposition, and that is that we should never allow our foreign competitors to steal our jobs by using illegal subsidies. And, in fact, that is what has happened with the Airbus company that has now been found guilty of receiving billions of dollars of illegal sub-

sidies from European governments to subsidize their airplanes, including a tanker.

Now that company wants to steal American jobs by taking away a contract for the next tanker for the U.S. Air Force, so that those jobs can be shipped to France and other places. This is wrong, and it cannot stand.

We need to pass an amendment that will be offered on the defense authorization bill that will assign a cost of those illegal subsidies to the Airbus bid. If we do this, Republicans and Democrats will be united in standing for American jobs, for fairness, and for the rule of law. It's the right thing to do. We can't allow these jobs to be stolen.

THE CONGRESSIONAL BUDGET

(Mr. CAMPBELL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CAMPBELL. Mr. Speaker, most American families have a budget. Almost all American businesses have a budget, and virtually every State, county, local government has a budget. And, in fact, in this House, since the current Budget Act was passed in 1974, we have had a budget that has passed in this House every single year, except for this year.

Maybe the Democrats who run this place lost it. Let's see. Is it under here? No, that's the CONGRESSIONAL RECORD. That's not it.

Maybe they lost it. No, they didn't lose it, Mr. Speaker. They are not passing a budget because they don't want the American people to see that they have, after almost doubling the national debt already, they're going to triple it again. And, Mr. Speaker, they do not want the American people to see that because they know it will bring a financial calamity upon this country like one we have never seen if we don't turn it around.

WELCOMING THE 13TH ANNUAL RENEWABLE ENERGY AND ENERGY EFFICIENCY EXPO

(Mr. BUTTERFIELD asked and was given permission to address the House for 1 minute.)

Mr. BUTTERFIELD. Mr. Speaker, I rise today to recognize the 13th Annual Renewable Energy and Energy Efficiency Expo here on Capitol Hill. As we struggle with rising energy costs and the BP oil spill, we are reminded every day about the importance of a sustainable energy policy.

This important event will bring together nearly 50 businesses, sustainable energy industry trade associations, government agencies, and energy policy research organizations to showcase the enormous potential of renewable energy and energy efficient technology.

As we search for ways to stimulate the economy, create green jobs, lower

costs, reduce reliance on energy imports, and lessen the threats posed by the emission of greenhouse gas emissions, we must pay attention to this.

Mr. Speaker, I ask my colleagues to join me in welcoming this year's participants, and I encourage everyone to take some time to see the exhibits and speak with the participants.

PASSING A CONGRESSIONAL BUDGET

(Mr. LANCE asked and was given permission to address the House for 1 minute.)

Mr. LANCE. Mr. Speaker, I rise today to call on leaders in Congress to put forth a congressional budget and allow a meaningful, open debate on the important fiscal issues facing the Nation.

Producing a Federal budget blueprint is one of the most basic responsibilities of Congress. Yet, as of today, no such budget exists.

The failure of presenting a budget to the American people is a failure of leadership by the Democratic majority to govern and a missed opportunity to put forth a budget blueprint that puts our Nation on the path to fiscal responsibility.

Never before in the modern era has the House of Representatives failed to pass a budget; but never before has our Nation seen this type of unprecedented, runaway congressional spending, deficits, and debt.

According to the nonpartisan Congressional Research Service, the Congress has never failed to consider a budget resolution since the current budget rules were passed in 1974. Yet for the first time in 36 years, the Democratic majority has chosen irresponsibly to avoid the hard budgetary choices New Jersey families and small businesses must make every day.

THE NEW DIRECTION CONGRESS

(Ms. WATSON asked and was given permission to address the House for 1 minute.)

Ms. WATSON. Mr. Speaker, as we go through Memorial Day this season, we recognize those brave men and women who defend our country. The New Direction Congress, under Democratic leadership the last 3 years, has made historic gains for America's troops, veterans, and military families. We have expanded new GI Bill college benefits for all children of fallen troops since 9/11. We have given businesses a \$2,400 tax credit for hiring unemployed veterans. We have provided nearly 2 million disabled veterans a \$250 economic recovery payment. We've established a veterans corps, creating volunteer opportunities to put veterans back to work, landmark legislation for wounded veterans, providing help to family members and other caregivers, and eliminating copayments for catastrophic disabled veterans injuries. We've enhanced health services for
